

Cleland Wildlife Park

BUSH BUDDIES

Perfect for those outdoor playing, nature loving kids. Bush Buddies has become a very popular program among members and visitors and develops a sense of belonging, connection and adventure in the natural world and the native animals that we share it with. This program is held within the school term and is the perfect place for children to socialise with others. Each week children will explore a different Australian animal through storytelling, music, interactive and sensory learning experiences, while also exploring the park.

Term 4 2026 (10 weeks)

Sessions are held weekly. All sessions are divided into 10-15 minute segments; Music/Storytime, Inquiry Learning, Sensory-based Activities, and Exploration in the Park.
