

Cleland Wildlife Park

PUGGLE PLAY

Cleland's natural outdoor setting is the ideal place to nurture your little one's curiosity in the wonder of nature. Puggle Play, designed for ages 6 months to 2 years, is a much-loved program among members and visitors and develops a sense of belonging, connection and curiosity. Children and parents learn about the natural world around them through smells, textures, music, sights, songs and more. In the warmer months, sessions are held outdoors and in the rainy months, sessions are held indoors. Each week is different and full of nature sensory fun activities.

Term 4 2026
(9 weeks)

Sessions are held weekly. All sessions are divided into 10 minute segments; Song time, Book time, Guided sensory, Sensory exploration, and Nature walks.
