Updated May 2022

The following pages show organisations that are Third Party Providers, accredited in South Australia by the Native Vegetation Council under Section 25C of the *Native Vegetation Act 1991*. Third Party Providers may be non-government organisations, environmental businesses, local councils, landscape boards or similar. They have:

- skills and experience in managing South Australian native vegetation for biodiversity conservation
- the capacity to enter into and administer relevant contracts and long-term agreements.

Third Party Providers can establish, assign and (where applicable) broker SEB credit under the *Native Vegetation Act 1991* and the *Native Vegetation (Credit for Environmental Benefit) Regulations 2015* in South Australia.
