4.4 Local Council Survey results and heritage workshops

Mr Leonard Blazeby, Heritage SA, noted that the purpose of the survey was to seek Local Council opinion on what challenges or issues they face regarding Local Heritage listing and management as well as opinions on the overall functioning of heritage management from a local government perspective.

The survey was sent to all South Australian local councils and the Outback Communities Authority. 45 survey responses were received from Councils. 24 were from the Greater Adelaide Metropolitan area and 21 from regional Councils and the Outback Communities Authority.

The results of the survey formed the basis of a workshop held with select councils to assess and analyse the responses received. 20 participants from 14 local councils and the LGA, attended the local council workshop.

The Council considered and discussed the Survey results.

The Council noted that the results are an excellent snapshot of what is working well and what is not working well, and will help inform the Council's priorities going forward.

The Council requested that a further synthesised report would be very useful which would include why we did it in the first place and what we have heard merging information from the survey results and the workshop.

It was agreed that the information will be shared with the Planning Commission at the Chair's next meeting with Mr Craig Holden.
