You don't often get email from  [Learn why this is important](#)

Hi Heritage SA team,

I'm writing to support the nomination of the Coles building. I don't have any personal recollections of experiencing the inside of the building (as my grandmother would take us to Harris Scarfe cafeteria for lunch when visiting the city) but consider it an iconic part of the streetscape of Rundle Mall. The streamline (horizontally linear, street corner curve, terracotta tile facade) style of this building is unique for Adelaide and I believe it is an outstanding example.

It is extremely important to me that all eras of architecture are preserved/represented in our city.

Thank you for considering this property for state listing. I look forward to hearing that it is a confirmed place following the public consultation phase of the listing process.

Kind regards,
