

SA Heritage Conservation Grants Program

Round 4

21 projects awarded SA Heritage Conservation Grants in Round 4.

Twenty-one State heritage-listed properties share in \$250,000 of grant funding to help conserve the significant sites under the fourth round of the SA Heritage Conservation Grants Program.

Sites awarded funding in this round are an interesting mix of hotels, stone walls, a bridge, a flour mill, a brewery boiler room, a railway station turntable, a shearing shed, a lighthouse and a former schoolhouse from all over the state. Grant allocations range from \$4,000 to \$20,000.

The successful projects were selected by a panel of heritage architects and experts based on a set of criteria.

Under the program, up to \$5,000 is available for simple projects, \$10,000 for complex projects and \$20,000 for major projects.

Heritage Conservation Grants cover up to 50 per cent of the anticipated costs of conservation works or documentation, with the recipient responsible for matching funding dollar for dollar. In some cases, in-kind labour and materials may be recognised as part of the matching contribution.

Conservation projects that benefit the public realm, activate under-used places, support specialised heritage training, and/or support continued use, may get special consideration.

Summary of Round 4 Recommended projects:

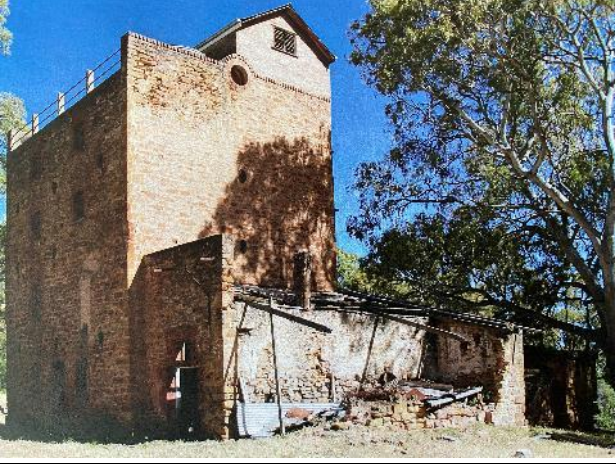

STATE HERITAGE PLACE (SHP)	PROJECT DESCRIPTION	GRANT AMOUNT
<p>Pastor Rechner's Cottage, Lights Pass (SHP 16344)</p>  A photograph of a weathered, single-story wooden building with a corrugated metal roof. The building appears to be a small cottage or shed, situated in a rural area with trees and a clear blue sky in the background.	Structure stabilisation and roofing repair	\$20,000
