NOMINATION FORM

To help your nomination be successful, please fill out this form with as much information as possible.

Feel free to expand the answer fields as much as you require or append information to the form.

It is important that you attach images and a map of what you are nominating by email or by fax.

Please note that places which have been nominated during past three years will not be reconsidered by the South Australian Heritage Council unless you can provide significant new information not provided through the previous nomination and assessment.

For assistance with this form you may contact:

Your local historical society or heritage adviser may be of assistance OR you may telephone an assessment officer in Heritage South Australia on (08) 8124 4960.

A. Nominated Place

1. Name	
Name of Place / Object:	Axel Stenross Boatshed & living quarters
Any other or former name(s):	McFarlane's Boatshed (original); Gulf Docking Slip (Stenross trading name); Axel Stenross Maritime Museum Inc. (current).
Is the place already on another heritage list?	None identified

2. Location						
Street Address:	97 Lincoln Hig	97 Lincoln Highway				
	Port Lincoln 5606					
Local Council Name:	City of Port Lincoln					
Land Description: (if known)	Title: CR5768/501	Volume:	Folio	:	Parcel Type:	Parcel No: H510600

significance.

NOMINATION FORM

D. Heritage Significance

7. Statement of State Significance - Why is the place or object important to South Australia?

The original building is of historical significance as the only remaining example of a wooden boat building shed of the type that existed in Port Adelaide and elsewhere in South Australia through the mid-1900s. It is unique in that it is complete with the boat building tools, equipment and materials, and many of the domestic items that it contained when the business closed in 1980. There are few such original sheds left in Australia and as far as is known, none that have been kept as well preserved in its original condition.

It also has a strong historic association with the Finnish migration and settlement in Port Lincoln from the grain-trade windjammers that are an iconic part of South Australia's history.

It was described in 2016 by the then Director of the SA Maritime Museum as being a site of national significance as an extremely rare, complete example of its type and remarkably well preserved in its original condition.

8. S	ignificance Criteria	
	South Australian <i>Heritage Places Act 1</i> ase tick the criteria you feel the place de	1993 lists seven criteria by which places are assessed as 'State significant.' emonstrates and explain your reasons.
√	It demonstrates important aspects of the evolution or pattern of the State's history.	It is significant from a state perspective in that it is encapsulated in the unique story of the maritime relationship between Finland and South Australia through the windjammer grain trade. Many Finnish sailors settled on the southern coast, carving out trades and lives, and sharing their centuries old maritime skills and traditions.
		Following the 2009 demolition of the boatyards in the Jenkins Road precinct of the Central Basin at Port Adelaide to make way for urban redevelopment, the Axel Stenross boatshed became the only remaining example of the State's former plethora of boat-building yards that crafted wooden vessels for maritime trade, commercial fishing and recreation purposes.
		It ranks equally with Blunt's boatshed in Williamstown Victoria as a nationally-significant example of early twentieth century working boat shed.
		The building is also of local significance in that Port Lincoln is a town that survived on and thrived from its maritime industries (fishing being key). The town's wealth relied on boats for fishing, trading and recreation. The boats that were built at the current site on the foreshore between 1930 and 1980 met those needs.
		The boatshed and its original contents clearly demonstrate and provide a unique insight into the boat-building skills, tools and construction methods, and the living and working conditions of the era. The historic significance of this unique original building cannot be replicated.
	It has rare, uncommon or endangered qualities that are of cultural significance.	
	It may yield information that will contribute to an understanding of the State's history, including its natural history.	
	It is an outstanding representative of a particular class of places of cultural

	It demonstrates a high degree of	NOMINATION FOR
	creative, aesthetic or technical accomplishment or is an outstanding representative of particular construction techniques or design characteristics.	
•	It has strong cultural or spiritual associations for the community or a group within it.	The building is the core of the Museum that is itself socially significant as its inception and its current state demonstrates a stable and deeply involved community of volunteers dedicated to preserving the memory of Axel Stenross and displaying elements of the broader maritime history of lower Eyre Peninsula.
√	It has a special association with the life or work of a person or organisation or an event of historical importance.	Axel was an iconic local personality and the boatshed is an iconic structure in Port Lincoln. As such, the museum is important in the history of the Port Lincoln community and as major tourist attraction of the region.

E. Additional Information

9. Images/Maps/Diagrams/Site Plans

A full range of images including maps, site plans, and photographs will help your nomination. Please provide:

- a clear outline of the place or object being nominated within any maps or plans provided
- high quality images of the place or object (please list the total number of images being provided)
- the subject of each image
- the date each image was created
- the author of each image, and
- the copyright holder of each image (if known)

NOMINATION FORM

Nomination Form Checklist
Please check that your nomination includes:
A clear indication of the location of the place or object (including map/s). Where a number of features are nominated, show the location of each and/or a boundary surrounding the significant elements of the site.
☐A history of the place or object explaining important aspects relevant to the nomination.
This should generally help support arguments of cultural significance.
☐A clear description of the nominated place or object/s.
☐A statement of significance and indication on how the place or object satisfies one or more of the significance criteria.
☐A heritage officer may contact you to discuss aspects of the nomination.
