# Urban Greening Strategy for Metropolitan Adelaide 2025 to 2030

VISION: A resilient and liveable Adelaide for all: leafier, cooler and more biodiverse

Actions

Measuring

success:

Target: Achieve 30% urban tree canopy cover by 2055

Performance investigation areas: Reduce urban heat and improve plant species diversity.

### Government of South Australia

## 6. Scaling up impact by working together

- Roles and responsibilities are clear, learnings are shared, co-investment is optimised and cross-sector challenges are addressed
- Quality information, education, research and guidance to achieve urban greening is available to all
- Aboriginal wisdom is recognised and partnership opportunities are facilitated
- 6.1 Develop and implement a crosssector collaboration approach to identify opportunities for greater coordination, co-investment, efficiencies and measuring impact.
- 6.2 Investigate funding mechanisms for protecting and expanding urban greening, WSUD and BSUD delivery.
- 6.3 Develop a co-ordinated and strategic research plan to identify and fill knowledge gaps.
- 6.4 Develop a centralised hub to share knowledge across the region, between government and non-government sectors and with the community.
- 6.5 Extend the reach of established bridging organisations and networks that are working well.
- 6.6 Build industry capacity through introducing WSUD, BSUD and nature-based solutions to tertiary education programs and other industry learning forums.
- 6.7 Work with KYAC and other Kaurna groups to identify opportunities for partnerships with Kaurna.
