

Butterflies of the Adelaide Region

MOSTLY BROWN OR ORANGE

Medium sized (2.5cm - 6cm) or Large sized (>6cm)

UPPER SIDE

UNDER SIDE

Phigalia Skipper

Flame Sedge-skipper

Donnysa Sedge-skipper

Golden-haired Sedge-skipper

Large Brown Skipper

Black and White Sedge-skipper

UPPER SIDE

UNDER SIDE

Lesser Wanderer

female

male

Common Brown

Australian Admiral

MOSTLY BROWN OR ORANGE

Medium sized (2.5cm - 6cm) or Large sized (>6cm)

UPPER SIDE

UNDER SIDE

Wanderer (I)

UPPER SIDE

UNDER SIDE

Ringed Xenica

UPPER SIDE

UNDER SIDE

Orange Palm-dart (I)

Marbled Xenica

Meadow Argus

Australian Painted Lady

MOSTLY BROWN OR ORANGE
Small sized (<2.5cm)

WHITE or CREAM with BLACK or BROWN
Medium sized (2.5cm - 6cm) or Large sized (>6cm)

UPPER SIDE

UNDER SIDE

Mottled Grass-skipper

White-banded Grass-dart

Southern Grass-dart

Chequered Copper

Fringed Heath-blue

UPPER SIDE

UNDER SIDE

Cabbage White (I)

Wood White

Caper White

pale form

dark form

White Migrant

MOSTLY YELLOW
Medium sized (2.5cm - 6cm)

UPPER SIDE

UNDER SIDE

Small Grass Yellow

WHITE or CREAM with BLACK or BROWN
Medium sized (2.5cm - 6cm) or Large sized (>6cm)

UPPER SIDE

UNDER SIDE

Dainty Swallowtail

Chequered Swallowtail

Tailed Emperor (I)

MOSTLY BLUE
Medium sized (2.5cm - 6cm)

UPPER SIDE

UNDER SIDE

Broad-margined Azure

Satin Azure

female

male

Genoveva Azure

Icilius Blue

Western Dusky-blue

MOSTLY BLUE
Small sized (<2.5cm)

UPPER SIDE

UNDER SIDE

Blotched Dusky-blue

Two-spotted Line-blue

Wattle Blue

Bitter-bush Blue

Saltbush Blue

Common Grass-blue

UPPER SIDE

UNDER SIDE

Long-tailed Pea-blue

USING THIS KEY

This key will assist you in identifying butterflies likely to visit your garden or native reserve in the Adelaide Region.

The key is based on colour and size and, where possible, two views of each butterfly are shown; the upper side and the under side.

The four colour groups represent the upper side wing colours - mostly yellow or white; mostly orange or brown; mostly white or cream with black or brown; and mostly blue.

The sizes, small (<2.5cm), medium (2.5cm - 6cm), and large (>6cm) represent open wingspan and are shown at approximate life size when printed A4.

Note the photographs presented here show the wings fully open and when butterflies are at rest they may hold their wings in such a way that you only see the under side. This is especially so for the skippers, darts and blue butterflies, some of which never open their wings when at rest.

Butterflies named in **red** with an **(I)** naturally migrated or have been introduced into the region.

ACKNOWLEDGMENTS

This key was adapted from the Butterfly Identification charts produced by Butterfly Conservation SA Inc. and the South Australian Museum.

Photography by Roger Grund and Trevor Rowe from pinned specimens in the South Australian Museum (copyright Butterfly Conservation SA Inc.).

Green Adelaide also appreciates the invaluable assistance provided by Jan Forrest OAM in the production of this resource.

FURTHER INFORMATION

For scientific names and information on these butterflies, their food plants and how to attract them to your garden, please see the book 'Attracting butterflies to your garden: what to grow and conserve in the Adelaide region' by Lindsay Hunt, Roger Grund, David Keane and Jan Forrest (2007) published by Butterfly Conservation SA Inc. and available from the South Australian Museum book shop, Butterfly Conservation SA Inc., and other retail outlets.

Additionally, discover which butterfly-friendly plants are found in your area and the butterflies that are associated with them at <http://butterflyconservationsa.net.au/butterflies/attract/>
