Butterflies & Moths

Attracting butterflies to your garden: what to grow and conserve in the Adelaide region (Copy 6) [Book]

2007, Butterfly Conservation SA Inc.

Have you ever wondered where all the butterflies have gone? Attracting Butterflies to Your Garden is for those people who would like to see more of these beautiful creatures in the gardens of the Adelaide region. This book shows how to encourage forty of the more common butterflies to visit and breed in your garden. Following an exploration of the fascinating life-cycle of butterflies and the principles of 'butterfly gardening', each species is profiled, along with local native plants that butterflies like - and you'll love - in your garden.

Butterfly garden - a film about attracting native butterflies to your garden (copy 1) [DVD]

2011, Butterfly Conservation SA

Butterfly Garden is for those people who wish to see more of these beautiful creatures in our suburban gardens. In recent years, numbers of native butterflies have declined in many areas. However, we can reverse this trend by creating butterfly friendly habitat and growing local, native plants. This short film shows how to create a butterfly garden at your school, in your backyard or in a community garden. Creating a butterfly garden can be fun. Watching the butterflies come to visit is even more fun!

Caterpillars, moths and their plants of southern Australia (copy 1) [Book]

2019, Butterfly Conservation SA

This book "draws attention to the wonderful world of moths and their caterpillars...Native and introduced plants associated with each moth species are listed, noting their importance as food for caterpillars and highlighting the need to conserve remaining habitats and their biota."
