## *Agreement to work together*

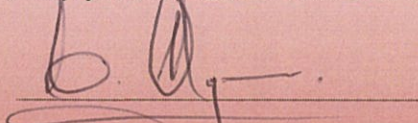

The Alinytjara Wilurara NRM Board and the Eyre Peninsula NRM Board commit to work together to build friendship between the people of their regions and to support each other in delivering optimum outcomes in natural resources management.

Aboriginal people from the remote regions of South Australia have travelled throughout the Eyre Peninsula area for thousands of years and are welcomed by the local Traditional Owners. Many now have family living in both regions.

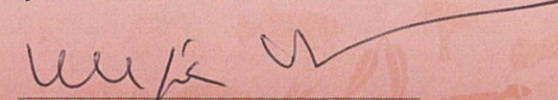

Adopting this *Statement of Intent* and agreeing to work together on a range of programs will develop strong, lasting and productive friendships between the people of the AW NRM Region, the people of the EP NRM Region and the Boards which represent them.

Both Boards commit to meet from time to time to reconfirm this friendship and to plan joint initiatives.
