

Eyre Peninsula Landscape Board Services Guide

The Eyre Peninsula Landscape Board (EPLB) safeguards Eyre Peninsula's natural and productive environment in partnership with local community with an emphasis on sustainable and productive land and water use, pest plant and animal control, and biodiversity conservation. Find a list of our services below and links to more information, plus services provided by other organisations and where to direct your enquiry.

	EPLB can assist	Other contact
Aquaculture Support for the aquaculture industry including aquatic animal health, education and disease risk management. PIRSA Aquaculture		✓
Biodiversity and native vegetation Providing advice and support to manage and improve native vegetation and biodiversity. EPLB Native vegetation management	✓	
Bores – Permit and regulatory information for bore/well-related works and activities (e.g. drilling and repairing). DEW Water licence and permit forms ; E: DEWwaterLicensing@sa.gov.au		✓
Camping in national parks and conservation parks Including complaints or reports of unauthorised activities (e.g. camping or off-road driving on conservation or Crown land). ☎ Department for Environment and Water (DEW)'s Port Lincoln office – (08) 8688 3111; E: DEW.onlinebookings@sa.gov.au National Parks and Wildlife Service South Australia		✓
Carbon farming We are involved in a Carbon Outreach Program. See our carbon farming web page for resources.	✓	
Cats (feral) – see pest animal control	✓	
Coastal management Advice on the management and protection of coastal areas, including revegetation, shorebird conservation and erosion control. EPLB Coastal management ☎ DEW's Coastal Management team – (08) 8124 4928; E: DEWcoastprotectionboard@sa.gov.au Coast Protection Board	✓	✓
Community grants – see grants	✓	
Dams – see water affecting activities	✓	

	EPLB can assist	Other contact
Deer (feral) – see pest animals	✓	
Development application/referrals Consideration of potential impacts on the natural resources of the region to ensure sustainable development. PlanSA		✓
Environmental education At times we deliver community workshops as part of our project work. Contact your nearest landscape board office to find out what opportunities currently exist for educational engagement. Also see our education page for a range of resources: EPLB Education	✓	
Erosion control Techniques on how best to protect land from erosion and advice on remediating areas that have been damaged is available on our sustainable agriculture pages and there are case studies on our regenerative agriculture page .	✓	
Farming support Our sustainable agriculture page has a range of farming resources including about soil management, cropping and pastures, and grazing. See also sustainable agriculture listing.	✓	
Fauna permits – hunting, keep and sell, destruction Department for Environment and Water - Wildlife permits		✓
Fishing licenses Commercial fishing licenses. Department of Primary Industries and Regions SA		✓
Foxes – see pest animal control	✓	
Goats (feral) – see pest animal control	✓	
Grants We have an annual Grassroots Grants program that supports individuals, volunteers, community groups and other organisations working on a not-for-profit basis, with local landscape management projects or events focusing on at least one of our regional priorities. See our Grants page .	✓	

	EPLB can assist	Other contact
Groundwater monitoring Information on our groundwater monitoring that is part of the Water Allocation Plan. See Department for Environment and Water – for Water license and permit forms		✓
Heritage agreements – native vegetation ☎ DEW's Native Vegetation team - (08) 8303 9777; nvc.haprogram@sa.gov.au		✓
Hooded plovers We work with BirdLife Australia on monitoring programs. See our Saltmarsh Threat Abatement and Recovery (STAR) project page for information such as how to share the beach with these threatened birds.	✓	✓
Insects ☎ Local pest controller. In some cases, local council may assist (e.g. ants on footpaths within townships). Identification of objects and specimens: SA Museum Discovery Centre – 0411 659 261; discovery@samuseum.sa.gov.au		✓
Landscape levy The regional landscape levy is used to fund projects and programs to help sustainably manage the region's landscapes with a focus on land and water management, biodiversity and pest animal & plant control. ☎ Manager Planning and Business Support – 8688 3200, ep.landscapeboard@sa.gov.au EPLB Landscape Plan	✓	
Locusts PIRSA Australian plague locusts, <i>Chortoicetes terminifera</i>		✓
Marine animals – stranded or injured seals, dolphins or whales ☎ DEW's Port Lincoln office – (08) 8688 3111		✓
Mice control Department of Primary Industries and Regions		✓
Native birds Management of over abundant species and issues. Department of Environment and Water or your local Council.		✓

	EPLB can assist	Other contact
Native vegetation clearance Information available on our native vegetation management page . ☎ DEW's Native Vegetation team – (08) 8303 9777; nvc@sa.gov.au	✓	✓
Pest animal control Advice on the control of declared animals and support for coordinated control programs for priority pests. See our pest animal page for details on our region's priority pests. Contact your closest EPLB office for control advice (<i>see list on page 1</i>). Report sightings to FeralScan .	✓	
Pest plant control Advice and support for the identification and control of declared weeds, including agricultural and environmental species. See our pest plant page for details on our region's priority pests. Contact your closest EPLB office for control advice (<i>see list on page 1</i>).	✓	
Pigeons ☎ Local pest controller SA Health Feral pigeons Contact your local council		✓
Plant (native and weed species) identification We can assist land managers to identify common plants and weeds on their properties and the management options. Contact your closest EPLB office (<i>see list on page 1</i>).	✓	
Pollution – air quality ☎ Environment Protection Authority (EPA) – (08) 8204 2004; yourepa@sa.gov.au EPA Air quality		✓
Rabbits – see pest animal control	✓	
Revegetation Information on how best to replant an area with local native plants, including advice on appropriate plant species. Information is available on our native vegetation management page . We also work with community groups and landholders under our Grassroots Grants Program on revegetation projects.	✓	

	EPLB can assist	Other contact
Roadside weed management – public road reserves (outside of township limits) Advice on effective roadside weed management and control techniques, including legal requirements to control declared plants. For more information, see our pest plants page . We also have a roadside vegetation plan page .	✓	
Soil Our Sustainable Agriculture Project includes a program focused on farm soil health. See our agricultural programs page for more information . See also our soil management page . See also <i>Farming Support</i> above.	✓	
Starlings ☎ Local pest controller Contact your local council Report sightings to StarlingScan (part of FeralScan)		✓
Sustainable agriculture Our sustainable agriculture page has a range of farming resources including about soil management, cropping and pastures, and grazing.	✓	
Volunteer support At times we are able to provide support to groups involved in environmental action. We work with BirdLife Australia on several monitoring programs, including supporting volunteers. EPLB Volunteering	✓	
Water affecting activities Permit and regulatory information activities that may impact the condition of a water resource, water dependent ecosystem or water users for the Eyre Peninsula. Water sources include watercourses, lakes, dams, wetlands, springs, soaks and catchment landscapes. ☎ Contact your closest EPLB office (<i>see list on page 1</i>) EPLB Water affecting activities	✓	
Water allocation planning Preparation and oversight of water allocation plans for Eyre Peninsula's prescribed water resources. EPLB Water allocation plans	✓	

	EPLB can assist	Other contact
Water testing If you rely on water from dams or groundwater sources such as soaks, bores and wells, it is important to regularly check water quality. We offer free salinity tests for landholders. Contact your closest EPLB office (<i>see list on page 1</i>) or see our Water testing page .	✓	
Water quality monitoring Monitoring the quality of water in local watercourses. ☎ EPA – (08) 8204 2004; yourepa@sa.gov.au DEW Surface water monitoring		✓
Weeds – see <i>pest plant control</i> for our work on priority pest plants for Eyre Peninsula. We can provide advice to landholders. See the Department of Primary Industries and Regions SA (PIRSA) weeds page for more information about a range of weeds.	✓	✓
Wells Permit and regulatory information for bore/well-related works and activities (e.g. drilling and repairing). DEW Water licence and permit forms E: DEWwaterLicensing@sa.gov.au		✓
Wild dogs (dingo) – see pest animal control	✓	
Wildlife – injured ☎ 8688 3223 - Eyre Peninsula National Parks and Wildlife Services SA duty ranger		✓
