

# Educational Resource kits

*Add value to learning in your classroom with our easy-to-use resource kits.*

*Explore macroinvertebrates, understand water quality or engage with fauna and birdlife.*

*Kits are available to loan at no cost from the Strathalbyn Natural Resource Centre.*

*Explore - Learn - Connect*

# What can I borrow?

Our resource kits cover a range of different topics that can be linked with Sustainability curriculum outcomes. Monitoring activities can be completed annually or seasonally for ongoing learning. Kits are user-friendly and contain everything you need including teaching resources.

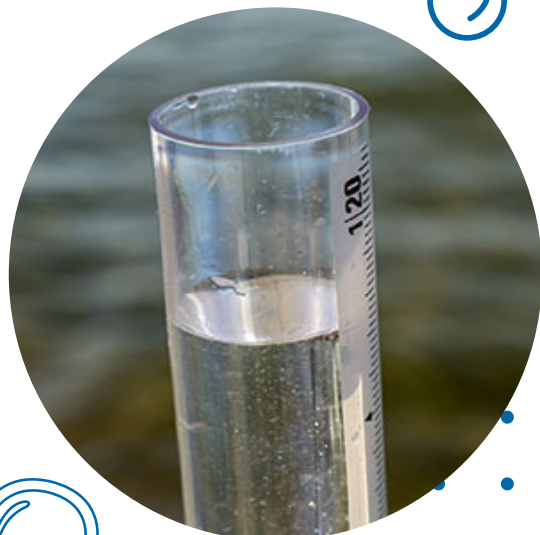

## Bird Monitoring

Binoculars and bird ID resources for bird monitoring and identification

## Water Quality

Simple water testing kit to test for salinity, turbidity and pH.

## Scats and Tracks

ID charts and specimens to understand what traces animals leave behind

## Macroinvertebrates

Sampling kit to collect, view and identify waterbugs

## Fungi Explorer

Identify and understand the importance of fungi
