

# Confined Aquifer Management Area Status Update

## Lower Limestone Coast Water Allocation Plan

Limestone Coast Landscape Board

Management Area	Status
FAIRVIEW	Not over allocated
KALANGADOO	Not over allocated
KINGSTON	Over allocated – a groundwater modelling project was completed which examined the impact of different levels of extraction on the confined aquifer. While use remains below the target management level further action will be explored through the water allocation plan review process. During the review process, if in the opinion of the Minister, the rate at which water is taken is such that it there is risk to groundwater levels, water availability, water quality or environmental assets, the Minister can apply restrictions.
