# Education program **2026 Calendar**

**“Inspire<sup>and</sup>  
empower  
young people,  
educators  
and community  
to value  
their local landscapes.”**

## Education program:

The Murraylands and Riverland Landscape Board's Education program offers opportunities for young people, educators and community members to explore their local environment and learn how to manage natural resources sustainably.

The program enables people to develop a love for, and appreciation of, their local landscapes.

The Education team are passionate about the program and working with schools and the community to develop strong connections.

## Program focus:

Create positive behaviour change and build leadership capacity through increased knowledge, skills and participation to manage local landscapes.

Provide opportunities for young people to connect with and develop a love for nature and their local landscape.

Educate students, educators and community members so they are well informed and empowered to take action now and into the future.

## 2026 calendar images:

Who better to inspire us all with beautiful images from our region than our young people!

This year's calendar features some of the fabulous entries from our 2025 youth photo competition.

We wanted to see our region through young people's eyes and find out what they think is important.

We received lots of great entries that we're excited to share. Be sure to keep your eye out for more amazing shots in upcoming promotions.
