Grassroots Grants 2025-2026

Applicant and Project	Total funds	Organisation	Council
The Pines Conservation Reserve <i>Pest Plant Management Plan for the Pines Conservation Reserve Inc.</i> The aim of this project is to develop a detailed Pest Plant Management Plan for the Pines Conservation Reserve. This will enable the conservation volunteers who manage the site a greater ability to prioritise on-ground works to manage emerging and established pest plants on the site.	\$6,000	Community Group	Light Regional
Price Progress Association <i>Price spread our wings</i> This project aims to enhance understanding and appreciation of the unique and ecologically significant natural environment surrounding Price, a coastal township within the Northern Yorke Landscape.	\$7,945	Community Group	Yorke Peninsula
Worlds End Conservation Pty Ltd <i>Enhancing biodiversity</i> Pest plant and feral animal control, revegetation and scientific monitoring.	\$10,000	Community Group	Goyder
Yorke Peninsula Field Days <i>YP Field Days site tree planting</i> Planting of 500 native tree, shrub and understorey plants in the parks and along the fence lines of the Yorke Peninsula Field Day site to provide additional shade and shelter.	\$5,003	Community Group	Copper Coast
The Emissaries Inc <i>Riverdell Riverbank Regeneration 2025</i> Targeted environmental restoration project focused on rehabilitating a degraded stretch of the Gawler River's northern bank at Hillier, South Australia. The project addresses critical issues including severe bank erosion, loss of native vegetation, and the aggressive spread of invasive plant species that threaten both biodiversity and river health.	\$8,000	Not-for Profit	Gawler

Grassroots Grants 2025-2026

Applicant and Project	Total funds	Organisation	Council
Nelshaby Ag Bureau <i>Boxthorn control</i> Purchase of equipment to help farmers in surround districts to access free of charge for control boxthorns.	\$6,050	Community Group	Pt Pirie
Snowtown Community Management Committee <i>First Nations cultural & language workshops in Snowtown</i> Cultural and language workshops with a Kurna cultural educator and local school and community members with a focus on community connections, as well as Aboriginal peoples' connection to the landscape.	\$2,200	First Nations	Wakefield
Clare Valley private lands group <i>Clare Western creek line restoration project</i> Restore the creek west of the Clare Oval. The current biodiversity and health of this riparian area is severely impacted by woody weed infestations.	\$10,000	Community Group	Clare & Gilbert Valley
Red Centre Enterprises <i>Revolutionising Australian Horticulture: First Nations wisdom meets drought resilience with innovative water-saving containers</i> Development and refinement of a unique, First Nations-designed and Australian-made water saving container. Building upon an existing prototype originating from Red Centre Enterprises, the project aims to produce an initial run of 1000 units, rigorously testing their efficacy in real world scenario: a native revegetation project.	\$10,000	First Nation	Northern & Yorke
Trees for Life <i>Restoring and enhancing biodiversity in a Blue Gum grassy woodland</i> Restoring and enhancing biodiversity in a Blue Gum grassy woodland - Our project aims to both restore and enhance biodiversity (flora and fauna) within a Blue Gum grassy woodland in Williamstown across 2 land tenures, and with 3 land managers.	\$7,283.80	Community Group	Barossa

Grassroots Grants 2025-2026

Applicant and Project	Total funds	Organisation	Council
Copper Coast Council <i>Discarding Declared Plants in Moonta Mines</i> This project will engage a contractor to assist with removal of declared plants in the Moonta Mines State Heritage Area. It will result in a reduction of weeds to help protect local indigenous plants, promote interpretation on site, stop the spread of declared populations and protection of heritage assets.	\$10,000	Council	Copper Coast
Orroroo Area School <i>NAIDOC awareness workshops</i> Cultural activities with a focus on community connections as well as Aboriginal peoples' connection to the landscape with a particular focus on native flora and fauna to our area.	\$4,000	First Nations	Orroroo
Narungga Nation Aboriginal Corporation <i>Narungga Ancestors return to Country</i> Support protection and restoration of habitats using endemic native vegetation and improve ecosystems through conservation and restoration of land that will be used for reburial sites.	\$10,000	First Nations	Yorke Peninsula
Point Pearce Aboriginal Corporation <i>Protecting and Restoring Country: A community-led approach to biodiversity, pest management and waterway health at Point Pearce and Wardang Island</i> Community-led initiative of the Point Pearce Aboriginal Corporation (PPAC), designed to address pressing environmental and cultural challenges across the Point Pearce Aboriginal Lands and Wardang Island (Waraldi), both of which are ecologically and culturally significant areas on Narungga Country.	\$10,000	First Nations	Yorke Peninsula
