Property owner details (if owner is different from applicant)		
Title: Mr <input type="checkbox"/> Miss <input type="checkbox"/> Ms <input type="checkbox"/> Mrs <input type="checkbox"/> Dr <input type="checkbox"/> Other <input type="checkbox"/> (please specify):		
Given name/s:	Surname:	Phone:
Address:		Postcode:
Postal address: (if different from above)		Postcode:
Have you sought permission from the property owner to undertake these works? Yes <input type="checkbox"/> No <input type="checkbox"/> If yes please provide written evidence		
Q1. Type of proposed works		
To assist in completing this form, please refer to the Guide to applying for a Water Affecting Activity Permit . Failure to provide sufficient information can delay the assessment of your application.		
This application is to (tick one only):		
<input type="checkbox"/> Construct, repair or remove a crossing (Go to Q2) <input type="checkbox"/> Remove vegetation (Go to Q3) <input type="checkbox"/> Drain or discharge water (Go to Q4) <input type="checkbox"/> Other works (Go to Q5)		
Q2. Construct, repair or remove a crossing		
A	<input type="checkbox"/> Construct a culvert (Go to B)	<input type="checkbox"/> Construct a causeway or crossing (Go to B)
	<input type="checkbox"/> Remove or repair a crossing (Go to B)	<input type="checkbox"/> Other (Go to C)
B	It is a requirement that to-scale drawings and cross section of the structure are provided along with a site plan. (Refer to the Guide to applying for a Water Affecting Activity Permit .) Is there a copy attached to the application? <input type="checkbox"/> Yes (Go to D) <input type="checkbox"/> No. We will be unable to continue with this application without them.	
C	Describe the purpose of the works:	

Follow us on social media @MRLandscapeSA

D	Describe how the works will be undertaken:
E	Describe any vegetation removal and disposal:
F	Describe erosion and sediment control management (i.e. rock chute, rip rap, vegetation, etc):
G	Go to Q6
Q3. Remove vegetation Please note that applications which involve removal of native vegetation may require separate approval under the <i>Native Vegetation Act 1991</i> .	
A	What is the proposed method of vegetation removal? <input type="checkbox"/> Cutting and swabbing - A water affecting activity permit is not required for this activity <input type="checkbox"/> Excavation – on the banks of the River Murray (Go to B) <input type="checkbox"/> Excavation – not on the banks of the River Murray (Go to C) <input type="checkbox"/> Other (Go to C)
B	If it is proposed to remove vegetation from the banks of the River Murray (for example willows) via excavation of the root system then Development Approval may be required from local council in which case a water affecting activity permit is not required. Contact your local council
C	Describe the purpose of the works:

D	Describe vegetation type:
E	Describe how the works will be undertaken:
F	Describe the erosion and sediment control management that will be undertaken.
G	Go to Q6
Q4. Drain or discharge water	
A	Describe the purpose of the works:

Follow us on social media @MRLandscapeSA

B	Specify the source of water proposed to be drained or discharged:
C	Is this: <input type="checkbox"/> a single event or <input type="checkbox"/> ongoing
D	Volume _____ kilolitres Timeframe: Date from _____ Date to _____ Rate of discharge _____ litres/second
E	Describe how the works will be undertaken:
F	Describe the erosion and sediment control management that will be undertaken:
G	Treatment methods proposed (e.g. detention basin):
H	Go to Q6

Q5. Other works

A

Please specify:

B

Describe the purpose of the works:

C

Describe how the works will be undertaken:

D

Describe any vegetation removal and disposal:

Follow us on social media @MRLandscapeSA

E	Describe erosion and sediment control management (i.e. rock chute, rip rap, vegetation, etc):
F	Go to Q6
Q6. Environmental risks	
A	Please identify any risks in regards to these works i.e. water quality, watercourse integrity, water dependent ecosystems:
B	Describe how these risks will be mitigated:

Q8. Site plan

A

You must provide a Site Plan and drawing(s) with your application that include the following information.

1. Site Plan

- North arrow and approximate scale of no less than 1:500
- The boundaries and divisions of the land and any relevant easements
- The position and dimensions of the proposed water affecting activity and distance to the site boundaries and other features such as trees that might be affected by the work;
- Key geographic features such as all watercourses, drainage lines, lakes and wetlands; slope of the land; contours; direction of water flow; floodplain etc.
- Significant features such as houses, sheds, trees and adjoining roads
- Existing dams and bores
- The level of the structure in relation to any street or watercourse;
- Where relevant, the location of side entry pits to discharge points (spillway);
- The location and type of sediment control measures proposed both during the construction phase and following construction
- Native vegetation that will be retained or enhanced and any vegetation proposed to be removed.

2. Detailed Drawing(s)

- All information necessary to describe the size and nature of the proposed works

Note to assist you in developing your site plan, including details of the location and nature of the proposed works you may wish to access www.planning.sa.gov.au, www.naturemaps.sa.gov.au and www.googlemaps.com.au

Why is a site plan important?

It is important to provide a site plan as it describes what activity is being proposed, the works involved and any existing features/structures of the site. This information assists with the assessment of the application
