Property owner details (if owner is different from applicant)			
Title: Mr <input type="checkbox"/> Miss <input type="checkbox"/> Ms <input type="checkbox"/> Mrs <input type="checkbox"/> Dr <input type="checkbox"/> Other <input type="checkbox"/> (please specify):			
Given name/s:		Surname:	Phone:
Address:			Postcode:
Postal address: (if different from above)			Postcode:
<p>Have you sought permission from the property owner to undertake these works? Yes <input type="checkbox"/> No <input type="checkbox"/></p> <p>If yes please provide written evidence</p> <p>Do you have a water licence for surface water? Yes <input type="checkbox"/> No <input type="checkbox"/></p> <p>If the dam is to be constructed in the Eastern Mount Lofty Ranges or Marne Saunders as part of a surface water transfer please include a copy of your water licence</p>			
Q1. Type of proposed works			
<p>To assist in completing this form, please refer to the Guide to applying for a water affecting activity (WAA) permit and the Dam Development fact sheet.</p> <p>Failure to provide sufficient information can delay the assessment of your application.</p> <p>Desilting an off-stream or on-stream dam.</p> <p>You do not need a permit to desilt an off-stream or on stream dam as long as you meet the criteria outlined in Table 3.1 (page 7) of the Murraylands and Riverland Water Affecting Activity Control Policy. This includes making sure that when you desilt the dam you do not increase its size and dispose of the silt responsibly so it does not re-enter the watercourse.</p>			
This application is to:			
<input type="checkbox"/> Modify or remove an existing dam (Go to Q2)		<input type="checkbox"/> Construct a new dam (Go to Q6)	
Q2. Modify or remove an existing dam			
A	Dam measurements: (see engineer designs)		
	Dam depth ____m	Height of dam wall ____m	Approximate surface area when full ____ m ²
B	Dam capacity ____ML <i>(Dam Capacity Calculation Guide: Dam volume (ML) = (0.4 x area (m²) x depth (m))/1000)</i>		
C	Current water usage <input type="checkbox"/> Irrigation <input type="checkbox"/> Stock and domestic <input type="checkbox"/> Environmental <input type="checkbox"/> Industrial <input type="checkbox"/> Other

Q7. Environmental risks

A	Please identify any risks in regards to these works i.e. water quality, watercourse integrity, water-dependent ecosystems (This includes the excavation and stockpiling of rock, sand or soil during dam works.)
B	Describe how these risks will be mitigated.

Q8. Further information

A	Will any other works be undertaken at the same time? <input type="checkbox"/> Yes (Go to B) <input type="checkbox"/> No (Go to C)
B	Describe other works to be undertaken at the same time. Please note that some works may require you to apply for a separate water affecting activity permit.

C	<p>Do these works relate to any other application you have or are in the process of having assessed?</p> <p><input type="checkbox"/> Development application No. _____ If yes:</p> <p>Please specify works being undertaken:</p> <p><input type="checkbox"/> Environment, protection and biodiversity conservation applications</p> <p><input type="checkbox"/> Native vegetation application <input type="checkbox"/> Other (please specify)</p>
<p>Q9. Site Plan</p>	
A	<p>You must provide a site plan and drawings(s) with your application that includes the following information:</p> <p>1. Site Plan</p> <ul style="list-style-type: none"> • North arrow and appropriate scale of no less than 1:500 • Property boundaries divisions of the land and any relevant easements • Significant features such as houses, sheds, trees and adjoining roads • Key geographic features such as all watercourses, drainage lines, lakes and wetlands; slope of the land; contours; direction of water flow; floodplain etc • Existing dams (numbered in accordance with the table above) and bores • The precise location and dimensions of the proposed works to be carried including the dam, spillway and low flow bypass device and stating the approximate distances to property boundaries and other features such as trees that might be affected by the work • The location and type of sediment control measures proposed both during the construction phase and following construction • Native vegetation that will be retained or enhanced and any vegetation proposed to be removed. <p>2. Detailed Drawing(s), including, but not limited to:</p> <ul style="list-style-type: none"> • All information necessary to describe the size and nature of the proposed works • The low flow bypass device details <p>Note to assist you in developing your site plan, including details of the location and nature of the proposed works you may wish to access www.planning.sa.gov.au, www.naturemaps.sa.gov.au and www.googlemaps.com.au</p> <p>Why is a site plan important?</p> <p>It is important to provide a site plan as it describes what activity is being proposed, the works involved and any existing features/structures of the site. This information assists with the assessment of the application</p>

Q10. Checklist

A Please ensure the following information is attached if required. Please ensure you attach copies as documentation is unable to be returned.

- ☐ **Written evidence that permission has been sought to undertake works on owner's property**
- ☐ **Copy of water licence** (if applicable)
- ☐ **Site plan (must be included)**
- ☐ **Dam designs (must be included)**
- ☐ **Application fee** (please select method from below options)
 - ☐ Bank transfer (EFT)
 - ☐ Cheque/money order
