

FREE WORKSHOP:

Desalination for wine producers – Eden Valley

You are invited to register for a free workshop about on-farm desalination.

This short, practical workshop is designed to answer your questions about desalination – why, when, where and how.

Joined by Rowater Australia, participants will have the chance to discuss desalination with industry experts and hear about local farmer's experiences with and practical tips for using desalination.

Key topics discussed will include:

- Water quality standards for vineyards, livestock and domestic consumption.
- How desalination works.
- Cost and pricing of desalination units.
- Waste management, upkeep, and more.

A solar-powered desalination unit will be on-site filtering local saline bore water.

Brianna Guidera

Sustainable Agriculture Officer

Email: brianna.guidera2@sa.gov.au

Mob: 0437 369 082

Participants are encouraged to bring along their water samples which will be tested for salinity and pH on the spot.

WHERE: 34 Murray Road, Keyneton SA

WHEN: Thurs 7th May 2026, 9-11:00AM

This project is funded by the Landscape Priorities Fund and the South Australian Drought Hub through the Australian Government's Future Drought Fund.
