Gawler Ranges District Plan

2024 - 2026

April 2024

Introduction

This plan provides an overview of the features of the Gawler Ranges district, the key opportunities and issues relating to landscape management, and priorities for the Gawler Ranges Landscape Group.

The Gawler Ranges is one of seven districts in the SA Arid Lands region, and is located in the central south-west of South Australia. It covers an area of over 5 million hectares, to the west of Port Augusta, and south of Woomera.

The district is characterised by calcrete plains, gypsum dune-fields and weathered rocky ranges that drain into terminal salt lakes. The primary land uses of the district are pastoralism (predominantly sheep), mining and energy, military, tourism, conservation (public and private lands), recreation and a township (Iron Knob). It is an ancient landscape, with significant cultural values.

Linked bioregions: A bioregion is an ecologically and geographically defined area with common characteristics such as geology, landform patterns, climate, ecological features and plant and animal communities. The Gawler Ranges district is primarily comprised of the **Gawler bioregion**, with small parts of the Stony Plains and Great Victoria Desert bioregions also present.

Size: 50,017 km2 (10% of SAAL Region)

Towns (population): Iron Knob – 110 (2021 census) reduction from 144 (2016 census)

Aboriginal Nations: Kokatha, Barngarla, (south-eastern), Wirangu

Land use: Pastoralism (predominantly sheep), mining and energy, military, tourism, conservation (public and private lands), recreation, service centres and a town.

Catchment and key waterways: Part Lake Torrens catchment. Minor drainage into Lake Gairdner and other salt lakes and towards Spencer Gulf. Very few waterways.

National Parks and Reserves: Parts of Gawler Ranges National Park – Gawler Ranges National Park Advisory Committee; part of Lake Gairdner National Park – Lake Gairdner National Park Comanagement Board; part of Lake Torrens National Park, Lake Gilles Conservation Park, Pinkawillinie Conservation Park and Pureba Conservation Park.

Key stakeholders:

- National Parks and Reserves Lake Gairdner National Park Co-management Board, Gawler Ranges National Park Advisory Committee, Friends of the Gawler Ranges National Park
- Landholders
- Nature Foundation SA Hiltaba Conservation Property
- Secret Rocks
- Gawler Ranges Aboriginal Corporation; Kokatha, Wirangu and Barngarla Traditional owner groups
- Mining Companies GFG Alliance, OZ Minerals and Peak Iron Mines
- Defence Katunga
- Progress Associations (Gawler Ranges and Iron Knob)
- Iron Knob community
- Tourism ventures

Role of the Board

Under the Landscape South Australia (LSA) Act 2019, the Board's role is to undertake, promote and integrate the management of natural resources. Particular reference is given to land management, water resource management and pest animal and plant control. The Board operates as the relevant authority for a range of water, land protection and animal and plant control activities and works with the community in delivering its responsibilities under the LSA Act. Its roles include education and awareness raising aimed at practice change and adoption, encouraging and supporting legislative compliance, and enforcement when needed.

Role of the Gawler Ranges Landscape Group

Landscape Groups are an important conduit for community input to landscape planning and design of the Board's programs. Groups work with local communities, to support the implementation of the Regional Landscape Plan and increase community awareness of Board programs within a Group's area.

Landscape Planning Framework

STRATEGIC ALIGNMENT TO:

- · South Australian State Landscape Strategy (in development)
- Australian Government National **Landcare Program priorities**
- South Australian Government Climate Change Action Plan
- Far North and Outback SA Climate **Change Adaptation Plan**
- · Local Government strategic plans

South Australian Arid Lands Regional Landscape Plan

- · Vision for the region
- 5 strategic priorities
- · Board's focus areas

Landscape Board Annual Business Plan

- **Board income**
- **Investment priorities**
- Key projects, services and partnerships
- **Board staffing arrangements**

SUPPORTING RESOURCES:

- Monitoring, evaluation, reporting and improvement (MERI)
- Far North Prescribed Wells Area Water Allocation Plan
- South Australian Arid Lands Water Affecting Activities Control Policy
- South Australian Arid Lands **District Plans**
- South Australian Arid Lands Landscape Board Pest Management Strategy
- bioregional descriptions
- · South Australian Arid Lands **Biodiversity Strategy (in review)**

VISION

Leading the way to biodiverse and productive landscapes in a changing climate

SA Arid Lands regional priorities

Priorities

Focus areas

CLIMATE RESILIENT REGION

Resilient landscapes, communities and enterprises are mitigating and adapting to climate change

- C1 Ensuring climate risk is embedded in all Board business
- **C2** Providing land managers with the knowledge and skills they need to mitigate and adapt to climate change
- **C3** Exploring adaptation pathways to ensure communities are climate resilient

WATER MANAGEMENT

The region's water resources are managed judiciously

- **W1** Planning, research & leveraging infrastructure investment to support the judicious use of groundwater
- **W2** Maintaining hydrogeology to protect Great Artesian Basin springs and groundwater-dependent ecosystems
- **W3** Understanding and managing surface water systems including the Lake Eyre Basin

SUSTAINABLE LAND MANAGEMENT

Land management practices protect soil, vegetation and biodiversity

- **L1** Effective pest plant and animal control protecting production systems
- **L2** Addressing the threat of excessive total grazing pressure
- L3 Building land managers' capacity in adaptive agriculture, best practice land management and rehabilitation

PROTECTING AND ENHANCING BIODIVERSITY

Intrinsic biodiversity values are protected and enhanced

- **B1** Managing key threats to protect natural values
- **B2** Taking action for threatened species and ecosystem recovery
- **B3** Maintaining and improving the condition of Great Artesian Basin springs and water-dependent ecosystems

PEOPLE AND PARTNERSHIPS

People and community are central to looking after our landscapes.

- **P1** First Nations partnerships supporting cross-cultural knowledge sharing and landscape management outcomes
- **P2** Supporting Landscape Groups to lead community action and education
- **P3** Raising awareness of the region's natural values and connecting people to nature
- **P4** Supporting community action to achieve land, water and coastal management outcomes

Gawler Ranges District priorities for landscape management

Priorities ¹	Landscape impacts	District Ranking ²	Alignment to Regional Priorities**
Weeds – other ³ (Buffel grass; Cactus Species; Fountain Grass; Innocent Weed; Mesquite; Parkinsonia; Pepper Tree; African Rue; Athel Pine)	Buffel grass forms dense monocultures. Outcompetes native species. Considered as a potentially useful pasture species by some landholders Displaces native vegetation with flow-on effects for native fauna Impacts also for stock management/pastoral production Production impacts include toxicity to stock, prickle contamination of fleece, thickets that impede stock mustering and access to water, harbour for rabbits	High	*
Managing total grazing pressure	Excessive grazing pressure leads to landscape degradation and disruption of landscape systems and processes; changes in vegetation composition, impacts on regeneration and recruitment; loss of vegetation cover, soil erosion. Impacts sustainable pastoralism and biodiversity, as well as condition of landscape features such as rock-holes. Overabundant kangaroos can lead to animal welfare impacts.	High	
Soil health – Understanding and supporting water and nutrient cycles	Improving carbon stocks and soil biological activity improves soil water drought resilience and pasture recovery after drought, benefitting production, biodiversity and climate mitigation	High	*
Adapting to a changing climate	Helps landholders manage financial risk associated with extended drought conditions and/or market changes, and provides opportunities to rest pasture and promote biodiversity values Interpreting climate data at district scale for property management	High	***
	Support opportunities to adapt to the proposed changing climatic conditions Potential depletion of underground aquifers. Potential impacts on pastoral industry and ground water dependent ecosystems		
Feral animals Foxes	Loss of native fauna; impact on livestock, particularly lamb mortality		
Cats	Predation of native fauna by cats leads to biodiversity declines	Medium	
Wild dogs	Serious issue for property management, potentially serious impacts on native fauna. Potential safety issues for public		*

Nature and cultural knowledge and awareness	Improved knowledge and awareness of local culture and environment, particularly for young people in the community	Medium	283
Education, capacity building and community engagement in landscape management	Assist and support community capacity and community led action through training, events and grants	Low	283

¹ Priorities include both <u>threats</u> and <u>opportunities</u> ranking.

² Priority ranking for the district considers the <u>magnitude</u> of the threat or opportunity (how <u>severe/influential</u> and how <u>widespread/ relevant</u>) it is, as well as the <u>reversibility</u> of its impacts. ** Some district priorities may not be regional priorities for the Board.

³ To be reviewed with district weed strategy

Gawler Ranges - Current programs and opportunities

District priority	District Ranking	Current programs and opportunities	Status	Who	Regional Focus Area
Climate Resilient Region	on				
Adapting to a changing climate - Diversification of income streams	High	Carbon Farming workshops	Potential	SAAL LB, PIRSA	C2, C3
Adapting to a changing climate - Interpreting climate data at district scale for property management planning	High	Supporting landholders in the use of My Climate View – webinar or in person	Potential	SAAL LB, BOM	C2
Water Management					
Striking a balance between landscape hydration and		Water Infrastructure Rebate for landholders	Current	PIRSA	W1
capture for livestock	High	Exploring technologies to find potable ground water for livestock and how to manage it when found	Potential	Landholders, SAAL LB, GFG Alliance, LB grants	W1
		Potential grader workshop and other opportunities	Potential	SAAL LB	W1
Sustainable Land Man	agement				
Land degradation – excessive		Regenerative Agriculture Workshops	Current/Ongoing	SAAL LB	L3, L4
total grazing pressure, especially from goats and new livestock breeds	High	On-ground projects to address land degradation, revisit old EMU, BPS and landscape legacy projects	Potential	SAAL LB, GR LG	L3, P4
Soil health – understanding and supporting landscape rehydration and nutrient cycles	High	Demonstration sites: on-farm examples of correctional practices for soil/land degradation for 'sticky beak' days	Potential	SAAL LB	L3
Weeds – agricultural weeds	High	Weed control and education	Current/Ongoing	SAAL LB, PIRSA, Landholders	L1

istrict priority District Ranking				Who	Regional Focus Area	
Over-abundant kangaroos/excessive total grazing pressure	High	Kangaroo Management Partnership Kangaroo Management survey	Current/Ongoing 2024-2026 Reapplied for and were successful LPF	SAAL LB	L2	
Wild dogs	Medium	Biteback wild dog control program	Current/Ongoing	SAAL LB, PIRSA, Landholders	L1	
Protecting and enhand	ing biodiver	rsity				
Feral predators – foxes	Medium	Threatened species recovery, landscape-scale pest control, Wild Dog Bait Injection services	Current – Use Wild dog bait services	SAAL LB	B1	
Feral predators – cats	Medium	Cat control program (around Iron Knob)	Potential	SAAL LB, OCA	B1	
Goats	High	Development of rangeland goat management policy – state goat coordinator	Current /2024-26	Pastoral Board, SAAL LB, other LBs and partners	B1, L2	
Weeds – Buffel Grass	High	DIT assist with control along roadways, SAAL funding	Current	SAAL LB, PIRSA, other LBs	B1	
Weeds – other environmental weeds, refer to <i>District Weed</i> <i>Information Guide</i>	High	Weed control – Athel Pine, Pepper Tree, Cactus and Boxthorn (Grassroots Grants program) Biocontrol - Use of cochineal on cactus	Current/Ongoing	SAAL LB	L1, B1, P4	
People and partnership	os					
Nature and Cultural Knowledge and Awareness	Medium	Education program; School of the Air and Kids on Country	Current/Ongoing	SAAL LB, Nature Foundation SA, School of the Air	P1, P3	
Education, capacity building and community engagement		Landscape Group meetings and local projects	Current/Ongoing	SAAL LB, GR LG	P4	
in landscape management	Low	Grassroots Grants for local projects	Current/Ongoing (offered annually)	SAAL LB	P4	
		Deliver and promote educational workshops and events in the Gawler Ranges	Potential	GR LG, FRRR	P2, P4	

District priority	District Ranking	Current programs and opportunities	Status	Who	Regional Focus Area
		Explore opportunities for accreditation in key training areas	Potential	Saal LB, Pirsa, Rda, Oca	P2
		Improve access to information and connect community to knowledge and capacity building opportunities Attract/encourage research projects and trials to the region; Develop social licence partnership with private industry (e.g. net zero carbon initiatives) Industry networking events – field days, to tap into research and industry knowledge	Potential	SAAL LB	C2, C3, L3

SAAL LB SA Arid Lands Landscape Board, **PIRSA** Department of Primary Industries and Regions, **RDA** Regional Development Australia, **OCA** Outback Communities Authority, **GR LG** Gawler Ranges Landscape Group, **GFG Alliance** Gupta Family Group Alliance, **BOM** Bureau of Meteorology, **LB** Landscape Board, **FRRR** Foundation of Rural Regional Renewal, **LPF** Landscape Priorities Fund

Gawler Ranges Landscape Group Actions

District priority	Opportunity	Action/s (for Group)	When	Collaborate	Status
Climate Resilient Region					
Diversification of income	Connect community to knowledge and capacity building opportunities	Hold carbon/soil workshop in GR district	1. Hold a workshop	1. SAAL LB	1. Ongoing
		2. Host industry networking event/field day – Race Course Pastoral Field Day	2. March 2025	3. Other	
		3. Connect community/peers to relevant Board staff for technical advice (RALF, Pest Plant and animal control, ecology team etc.)		Landscape Boards, SAAL LB, PIRSA	3. Ongoing
		4. Connect community to Drought Huba) Hub representative to attend group meeting		4. UoA, SAAL LB	4.Fiona Tomney to attend
Responding to a variable and changing climate	Collate climate information at district scale for property management planning	Identify what climate information is needed by landholders and what format would be most useful for their property planning	1.Share findings with GR LG and community as information arises	SAAL LB, BOM	1.Ongoing
Water Management					
Access to water supply/Lack of information about aquifers	Share new technologies with the GR community on how to; locate groundwater and best manage it when it has been found	1. Engage with mining companies on the technologies they use to find groundwater and share these findings with the GR community		GFG Alliance, SAAL LB	1.Engage with mining companies about the technology they use

District priority	Opportunity	Action/s (for Group)	When	Collaborate	Status
Striking a balance between	Connect community to	1. Host workshop in GR district		SAAL LB	1. Ongoing
landscape rehydration and capture for livestock	knowledge and capacity building opportunities	2. Find and share any relevant information/webinars with GR residents			2. Ongoing
Sustainable Land Management	1		1	1	
Land degradation – excessive total grazing pressure	Share findings from peoples PMP (Property Management Planning) journey	Identify potential demonstration sites: on-farm examples of correctional practices for soil/land degradation for 'sticky beak' days	1. Ongoing	SAAL LB, PMP participants	1. Ongoing
Raising awareness about the importance of soil health and the positive effect it has on vegetation	Deliver educational workshops and events on soil health in the Gawler Ranges	Share findings of soil related Grassroots Grants or landscape legacy projects (sticky beak day or landscape legacy fact sheets) with the GR community	1. Ongoing	1.SAAL LB	1.Ongoing
		Promote soil health webinars to GR community/Arid Lands residents		2.SAAL LB	2.Ongoing 3. Ongoing
		3. Soil specific workshop/s		J.SAAL LB	3. Origonig
Protecting and enhancing biod	liversity	-			
Goats	Share current information	share any relevant information/webinars with GR residents	Ongoing	SAAL LB, Pastoral Board	Provide information about new role
Cats	Share current information	share any relevant information/webinars with GR residents	Ongoing	OCA, SAAL LB	Update about IK cat management
Foxes	Share current information	share any relevant information/webinars with GR residents	Ongoing	SAAL LB	Ongoing

District priority	Opportunity	Action/s (for Group)	When	Collaborate	Status
Weed Management/Buffel Grass etc.	Share current information	share any relevant information/webinars with GR residents	Ongoing	DIT, SAAL LB	Ongoing
People and partnerships			1	1	1
Education in landscape management	Deliver educational workshops and events in	1a) Develop stakeholder engagement plan: Identify knowledge gaps, and		1. SAAL LB	1.Ongoing
	landscape management for Gawler Ranges community	b) Work with target audience to develop content for education/training			
		Promote visiting presenters and speakers to community		2. SAAL LB	2. Ongoing
		3. Host Sticky Beak Day – Secret Rocks	3. Early November 2024	3. Ecological Horizons, SAAL	3. Ongoing
		4. GFG Alliance site visit – IKPA (Iron		LB	
		Knob Progress Association) Iron Knob		4.IKPA, SAAL LB	4. Ongoing
		5. Visit Uplands SEB (Significant		5. IKPA, SAAL LB	5. Ongoing
		Environmental Benefit) - visit to look			
		at environmental offset area where			
		stock has been excluded and the area has been managed to combat pest			
		plants and animals			
		6. Department of Defence information session, potential site visit for group members, learning about their landscape management regime	6. Presentation at group meeting in June	6. Defence representatives, SAAL LB	6. Ongoing
	7. Nonning Family Event	7. September/October 2024	7. FRRR Community Impact Program	7. Ongoing	

District priority	Opportunity	Action/s (for Group)	When	Collaborate	Status
Understanding and preservation of cultural values	Produce educational resources and host educational workshops for youth, landholders and broader community	1.Kids on Country - expand involvement, working on expanding program offered	3 x camps at Hiltaba in 2024	Nature Foundation SA, SAAL LB, National Parks	1.Ongoing

Achievements

Port Augusta Pastoral Field Day - December 2021

Property Management Planning participation by GR residents 2021 - 2024

Buckleboo Workshop – May 2022/2023

Iron Knob Neville Bonney Workshop - May 2022

Secret Rocks Sticky Beak Day – October 2022

Iron Knob John Zwar Workshop - March 2023

DunnART theatrical roadshow - May 2023

Nonning Carbon/Diversification Workshop - June 2023

Iron Knob Worm/Compost/Biochar Workshop - September 2023

Corunna Grader Workshop - September 2023

Prepared by the Gawler Ranges Landscape Group on behalf of the SA Arid Lands Landscape Board 2021. Reviewed April 2024
