# SA Marine Parks Sanctuary Zone Maps

July 2016

# Foreword

Many of us have wonderful memories of childhoods spent at the beach. With so much beautiful coastline available to us, we have been blessed to be able to spend summers swimming, fishing, surfing and boating.

Oceans worldwide are now under increasing pressure from population growth, pollution and climate change. These are serious challenges and South Australia is not immune. If we want our children and grandchildren to enjoy the same marine environment we have grown up loving, we need to act now to protect it.

Our state's 19 marine parks were shaped by one of the state's biggest public consultation processes. It took into account evidence from some of Australia's top marine scientists, the concerns of environmental groups, as well as the views of everyday South Australians, recreational and commercial fishers and a range of other stakeholders.

Marine parks will work like national parks on land to help conserve some of our most important marine habitats and species. The zoning within each marine park will still enable all of us to enjoy our favourite activities, including fishing.

It's only in the sanctuary zones inside our marine parks where fishing and some other activities are not allowed. These sanctuary zones represent just 6 per cent of state waters and include critically important breeding and nursery areas for some of our best-loved marine life. Evidence from overseas and interstate shows the benefits of sanctuary zones, including benefits to fishers in surrounding waters.

Restrictions on fishing in sanctuary zones came into effect on 1 October 2014. There are no changes to existing access at jetties, breakwaters, boat ramps and most popular beaches.

This guide has been designed to assist recreational fishers in understanding the zoning, and provide maps with GPS coordinates.

Enjoy your fishing.

Great Australian Bight	22 - 23

# Background

# **Understanding the zones**

Each marine park is made up of four main zones. These are:

- General managed use zones.
- Habitat protection zones.
- · Sanctuary zones.
- Restricted access zones.

On these maps the sanctuary zones are shown in green, these are areas of high conservation value that have been set aside for conservation and recreation. No fishing or removal of plants or animals is allowed in sanctuary zones, however recreational activities such as boating, diving, surfing and swimming are welcome. These maps also show, in red, the restricted access zones that were in place prior to the marine parks. These maps are supported by other products, including:

- A series of detailed maps and GPS data on the website.
- A smart phone app.
- Sanctuary zone signage at selected shore-based locations.

# Sanctuary zones and why they were chosen

Sanctuary zones in South Australia's marine parks protect a range of animals and plants. Some protect seals, whales and sea lions, while others protect shark breeding areas and even birds. But many also protect places that are important to the future of recreational fishing.

Here are a few examples.

**Upper Gulf St Vincent –** a key fish breeding nursery of statewide importance protecting mangroves, saltmarsh and seagrass beds that provide homes for juvenile fish including garfish, whiting and blue swimmer crabs.

Offshore Ardrossan – snapper spawning ground.

**Point Davenport –** an important estuarine area that helps support a range of juvenile fish, including whiting.

Cape Elizabeth – squid spawning grounds.

Franklin Harbor – whiting nursery area.

**Light River Delta –** a significant nursery habitat for fish and one of the best-preserved mangrove estuary systems in South Australia.

Orcades Bank - King George whiting spawning grounds in Investigator Strait.

# **South Australian fishing regulations**

In addition to the Marine Park sanctuary zones, South Australian recreational fishers also need to be aware of other rules and regulations. These include:

- Size, bag, boat and possession limits which determine the size and the number of fish that can be taken.
- Limits on the fishing gear you can use.
- Seasonal closures and Aquatic Reserves that restrict when and where you can fish.
- Protection of some fish species.
- Prohibition of the removal of any bottom dwelling organisms from all intertidal rocky reefs in South Australia. This area is measured from the high water mark to a water depth of 2 metres.

While we want everyone to enjoy their fishing, it is also important that all recreational fishers are fully informed about their obligations so they can play their part in ensuring that there is plenty of fish for everyone to share into the future.

More information on recreational fishing rules and regulations is available at www.pir.sa.gov.au/fishing or through the SA Recreational Fishing Guide smartphone app (see next page).

Suspicious or illegal fishing behaviour can be reported to the 24-hour FISHWATCH number on 1800 065 522. Callers can choose to remain anonymous.

# Frequently asked questions about sanctuary zones:

Question	Answer
Can I drive a boat through or in a sanctuary zone?	Yes
Can I anchor in a sanctuary zone?	Yes
Are motorised water sports (water skiing, parasailing, jet skiing, etc.) allowed in sanctuary zones?	No (except jet skis can be driven straight through at less than 35 knots)
Can I be in a sanctuary zone with fishing gear?	Yes, as long as it is not being used
Can I be in a sanctuary zone with fish in my boat?	Yes
What is the fine for fishing in a sanctuary zone?	The expiation fee is \$315. However, all recreational line fishers are entitled to a warning for their first offence
Can I dive in a sanctuary zone?	Yes, as long as nothing is disturbed or removed
Can I fish from jetties?	Yes, marine parks do not change existing jetty fishing access
Can I shore-fish in a sanctuary zone?	In some yes, but in others no. The maps show where shore fishing is allowed
Am I able to fish just outside of a sanctuary zone?	Yes
Will other zones within a marine park, such as habitat protection zones, become sanctuary zones in the future?	Not without full public consultation and the approval of both Houses of Parliament. This is a requirement of the <i>Marine Parks Act 2007</i>

# **Smart phone app**

Getting the latest information on South Australia's sanctuary zoning and recreational fishing rules has now just been made easier with the FREE SA Recreational Fishing Guide app.

The SA Fishing app is a one stop shop for everyone to access information and maps on fishing in South Australia from the convenience of their Apple and Android mobile devices.

Full details can be found at:

http://www.pir.sa.gov.au/recfishingapp

Downloadable GPS coordinates and more detailed maps are available on our website: www.marineparks.sa.gov.au. Please refer to back cover for disclaimer and copyright information.

For basic mapping functions, simply go to your App Store or Play Store to download then:

- Open the app, click on "Closures" (bottom centre).
- 2. Then select "Closures Mapping" (top centre).
- 3. You can now navigate around the state, the blue dot shows your location, the green zones indicate the sanctuary zones.

For more detailed instructions on using the app please visit our website or call your local Natural Resource Centre (contact details on the back cover).
