

My visit to Cobbler Creek Recreation Park.

We will drive in our car to get to the park.

We can park our car in this car park.

If I need to go to the toilet, I will ask the adult that I am with.

These are the toilets that I can use.

There is a playground at the park.

There are things to climb, a slide, swings and rocks to climb on.

There is also an area called Gully Nature Play.

I can walk down this path to get to the nature play area.

The nature play area has painted rocks.

There are ladders on the side of the hill.

I can climb the ladders to see what is over the hill.

I can walk along this path.

There is a bee hotel in the nature play area.

A bee hotel is a place where bees can rest.

There may be bees close by so I need to be careful and not touch them.

There are signs to show the trails.

I can ask the adult that I am with to read the signs with me.

People can ride their bikes on the trails.

There is a bike track.

I can bring my bike and helmet and ride on this track.

There are hills to walk up.

I will remember to stay on the path.

When you walk up to the top of the hill, I can see far away.

There is a picnic area.

This is a place where we can rest and have a drink or some food.

There are table and chairs I can sit on.

I had a fun day at Cobbler Creek.
