

My visit to Para Wirra Conservation Park and Gawler View Play Forest

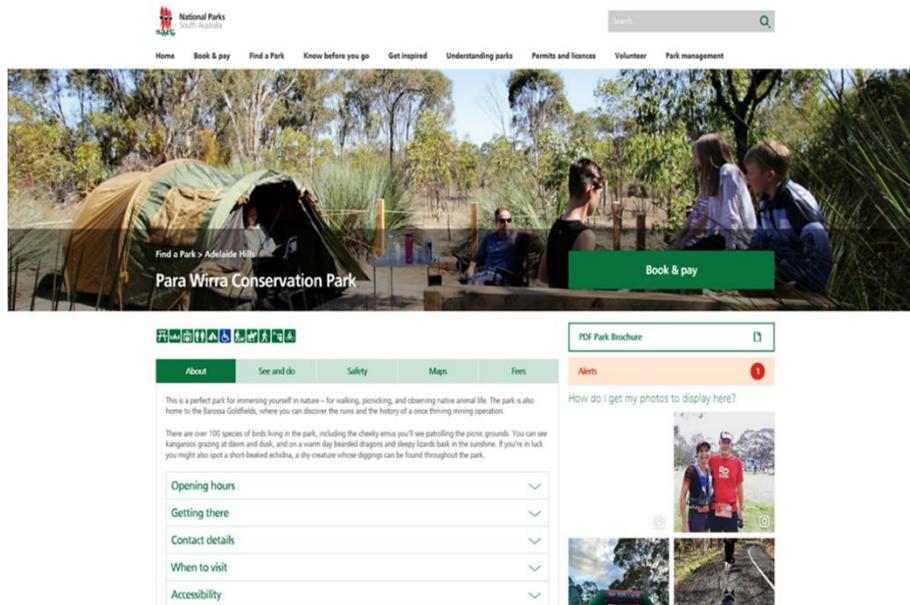

Animals and plants are protected in the park.

The park is a place where I can play, go for walks, ride a bike and have a picnic.

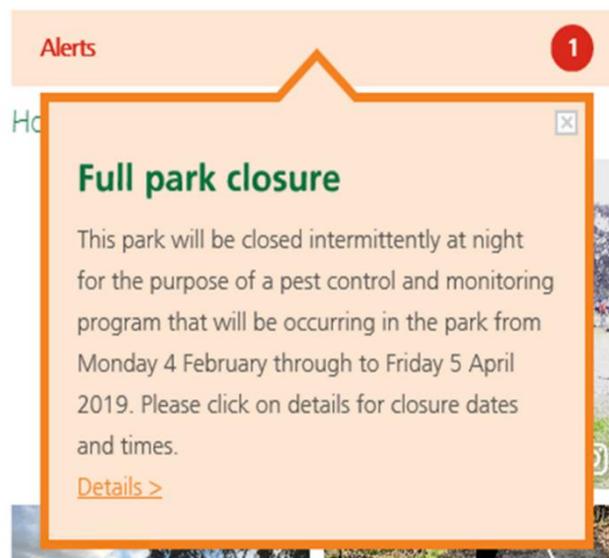

I can find information about the park on the National Parks and Wildlife Service website.

I can check if the park is open on the National Parks and Wildlife Service website.

It can be closed due to bad weather and bushfire danger.

I can pay my entry fee before going to the park on the website.

Campers only need to purchase an entry ticket once for the duration of your stay.	Book Now \$8	Available

I can use the map on the website to help me know where we are going.

When we park our car there may be other people and cars.

I will be safe if I stay near my adult.

I need to watch out for moving cars.

I can look at the information signs to know what to see and do in the park.

I can ask people in these uniforms for help.

They are park Rangers who look after the park.

There are toilets in the park.

If I need to go, I need to tell my adult first.

I need to wash my hands after using the toilet.

The water is brown colour and it is not for drinking.

There are no hand driers in the toilet.

These are some of the animals who live at the park.

If I stay quiet, I won't frighten off the animals.

I need to stay close to my adult.

Koala

Tawny frogmouth

Kangaroos

Rosella parrots

Shingleback or sleepy lizard

Emus

I can ride my bike on the Nature Discovery Trail.

When I'm riding my bike I must always wear my helmet.

I might see people walking towards me.

I need to stay with my adult.

At the Nature Play Forest, I can build a Cubby.

I need be careful when carrying the wood and look out for other people.

I can also play in the forest on the play equipment.

I must be able to see my adult when I do.

I can have a picnic at the park with my adult.

There are picnic tables and chairs that I can sit at.

There are BBQ's that can be used to cook on.

There may be other people having a picnic.

We don't share our food with the animals and birds because they have their own food to eat.

Our food stays with us.

I need to stay close to my adult when I eat.

I had fun visiting the park.
